

Examiner Approves Bonanza Renewal

Bonanza Air Lines' application for certificate renewal is approved by Civil Aeronautics Board Examiner Walter W. Bryan. In his initial decision in the case, Bryan concluded that the Nevada airline's certificate should be extended to Dec. 31, 1957.

Bryan's decision becomes final May 25 if there are no exceptions. Under the certificate, Bonanza could operate between Reno, Nev., and Phoenix, Ariz., and the intermediate points, Hawthorne, Nev., Las Vegas, Kingman and Prescott, Ariz.

Bonanza would also be permitted to fly between Phoenix, Los Angeles and Burbank, Calif., via Yuma, Ariz., El

Centro and San Diego, Calif. The airline also is authorized to continue its shuttle service between Las Vegas and Death Valley on a seasonal basis for the period between Oct. and Apr. 30 each year.
